

*What's New?*

THE LIGHT MOTION  
SUL1  
switches

# Discover the new **SL1 SWITCH**, incredible power/size/weight ratio, fully bicolour

## **SL1 SWITCH**

100x20x2cm, only 3.4Kg

### SL1 SWITCH SPECS

Type of emitter	2184 SMDs (1092 of each colour)
Angle of emission	120°
Colour temp.	3200 to 5600°k
CRI	94% CRI @ 3200°k 96% CRI @ 5600°k
Power Drawn	Max 170W
Size	1130x200x20mm
Voltage	24V constant current
Weight	3,4Kg
Basic Photometrics	3000 LUX @ 1 metre, in both colours

*Who are we?*

**Nicolas Goerg**  
*Gaffer and co-founder of the SL1*

The SL1 by Smartlight Motion is the love child of a gaffer, a cinematographer and a LED specialist, each bringing to the mix a unique blend of knowledge and expertise. The principle has always been to utilise LEDs in their most efficient ways in term of size, weight, control and light output. After years of surveying, testing and prototyping, the SL1 was built to satisfy the highest standards and needs of the cinema industry. This is what makes the SL1 a unique light.

*Discover it, love it.*
